Dear _____,

The Society for Mucosal Immunology (SMI) extends this official letter of invitation to you to attend the Mucosal Immunology Course and Symposium (MICS 2020) in Denver, United States, on July 20-23, 2020.

MICS is the only meeting that focuses exclusively on the interface between the immune system and the environment at mucosal surfaces. It is the perfect occasion for cross-fertilization between basic scientists, clinical researchers and industry professionals working on pathways of immunity and inflammation at mucosal surfaces. This invitation is extended solely to qualified investigators interested in attending the meeting. It should in no way be construed as a commitment or intent on the part of SMI to provide financial support or assistance.

Should you have any questions or concerns you may contact us by email, phone or fax.

Stay tuned for additional information (including the preliminary program and registration materials) by visiting the SMI website at **socmucimm.org**.

Sincerely,

Lori L. Conaway, CAE
SMI Executive Director
